FULL STACK SOFTWARE ENGINEER - 4+ YOE

AHEAD / CDI   Chicago, IL and NY, NY (Remote)   Sep 2022-Present
IT Services and IT Consulting
Full Stack Software Engineer

- Collaborate with UX Designers and Product Managers to redesign a client facing portal. (Vue.js)

- Using the Google Maps API, I worked with a Senior developer to create a validation module. The module validates thousands of addresses across 1 billion dollars of sales. The data came from three salesforce instances, our client portal database, and new incoming addresses.

- Developed comprehensive dashboards using IT SaaS APIs, providing customers with visibility into their services and enabling them to monitor their usage, ultimately reducing inquiries and ticket creation.

- Developed multiple full-stack web pages using Laravel, Vue.js, Tailwind CSS, and PostgreSQL

Florida SouthWestern State College, Fort Myers, FL   Nov 2020- Sep 2022
Full Stack Software Engineer

- Modernized the Schedule Search functionality on Class Schedule Search, collaborating with a team to significantly enhance user experience and accessibility. Class Schedule Search

- Maintained and updated fsw.edu in partnership with cross-functional teams, ensuring the site remained current and informative for students.

Ethicon Inc, Cornelia, GA   2015-2016
Quality Engineering Co-Op

- Observed an FDA audit of Ethicon Inc, gaining exposure to compliance processes

- Supported product validation efforts, ensuring quality standards and specifications were met.

- Assisted in preparing and organizing non-conformance reports, supporting the identification and resolution of quality issues.

EDUCATION

Indiana University Southeast, New Albany, IN   2014-2020
BA – General Studies, Minor Informatics
